

1C:ENTERPRISE

MODERN TREND OF
CORPORATE AUTOMATION

The background features a vibrant yellow gradient with abstract, low-poly geometric shapes in shades of orange and red, primarily located in the top-left and bottom-right corners. The text is centered on the left side of the page.

1C:ENTERPRISE
IS ALL THE RAGE

Innovative world-class technology platform

A system with built-in applications for efficient management and accounting

Over **1,000** mass-market solutions

Over **5,000,000** users in businesses and public institutions

Over **300,000** engineers develop applications in 1C:Enterprise programming language

The background features a solid orange field on the left, transitioning into a series of overlapping, semi-transparent geometric shapes in shades of yellow and orange on the right side.

1C:ENTERPRISE
WORLD-CLASS
TECHNOLOGY PLATFORM
FOR DESIGNING
CORPORATE SYSTEMS

- Scalable, fault-tolerant architecture
- Supports large-scale corporate systems
- Cross-platform design, open-source software support:
 - Linux, Windows, Mac OS
 - PostgreSQL, MS SQL Server, IBM DB2, Oracle Database
- Cloud (SaaS) technologies
- Mobile applications for Android, iOS, and Windows Phone
- Flexible and customizable for specific business processes and a company's proprietary techniques
- Built-in Business Intelligence tools
- Ability to create geographically distributed systems
- Openness and integration with the absolute majority of software and hardware
- Data access control and management
- Security: confidential information, trade secrets, and personal data

PERFORMANCE
AND SCALABILITY
ENSURE EFFICIENT AUTOMATION
OF LARGE CORPORATIONS
AND PUBLIC INSTITUTIONS**

Russian Post. An automated 1C:Enterprise system for over 40,000 workplaces. Providing a unified methodology for all methods of accounting along with real-time inventory management, monitoring, and analysis of business activities.

TRANSMASHHOLDING

Transmashholding. The 1C solutions suite is the corporate automation standard, featuring the ERP, CPM, WMS, and ECM systems. More than 13,000 workplaces are automated by utilizing the suite. Deployment of the unified corporate system generates a confirmed profit of 5,000,000,000 rubles (over US\$ 147,000,000) in the year of 2014.

Moscow City Government. A unified cloud system for financial management. Deployed by more than 1,300 city institutions with a total of 10,000 users and 230,000 employees. It is based on SaaS technology. It provides over 1,000,000,000 rubles (US\$ 18,000,000) annual cost savings.

1C:ENTERPRISE
A LARGE-SCALE SYSTEM

Bashkir Power Grid Company. ERP, ECM, MDM, and EAM systems, all based on 1C:Enterprise platform, deployed at more than 10,000 workplaces. This ensures efficient monitoring of business processes as well as management based on real-time data.

KAMAZ. More than 7,800 KAMAZ group workplaces are automated with 1C:Enterprise platform. This provides cost reduction, streamlines accounting and management, and ensures real-time consolidated reporting and financial analysis over all subsidiaries.

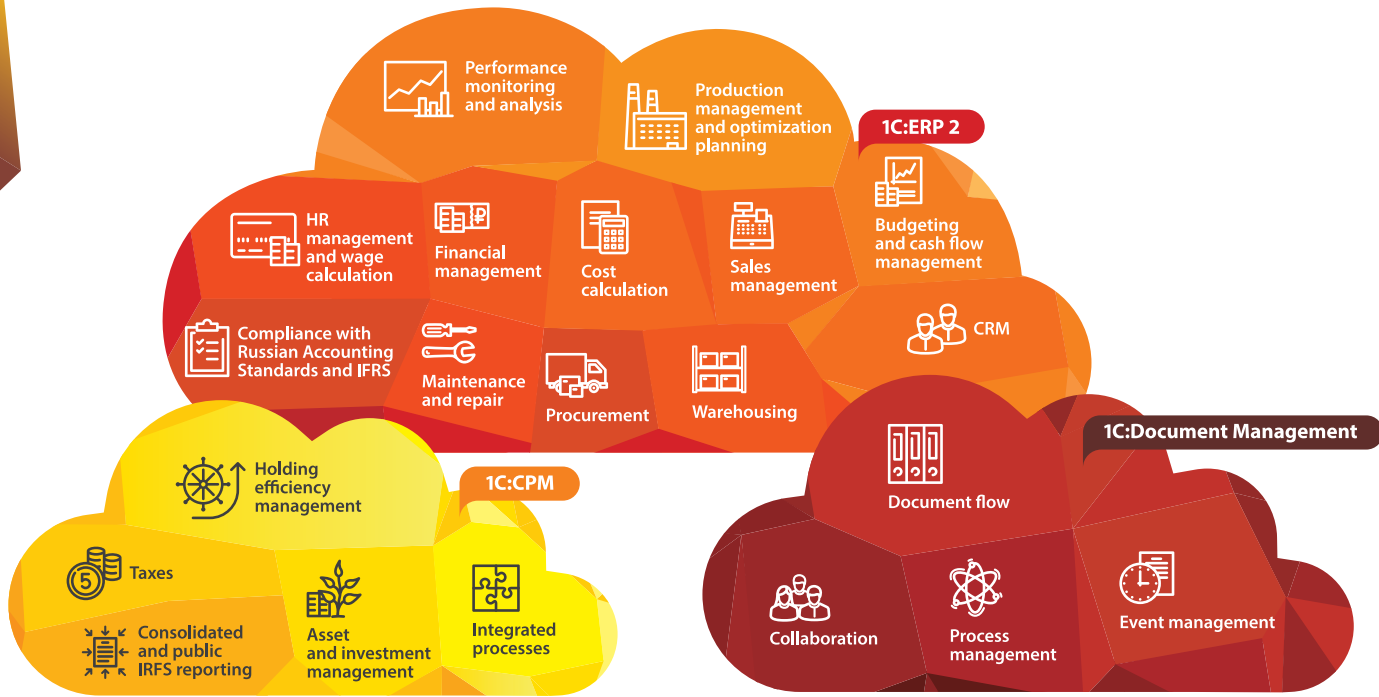

Sollers. More than 6,000 automated workplaces. This has been instrumental in cutting back manufacturing expenses, optimizing stock, improving the reliability of component supplies, and reducing production downtime.

Rosatom. State Atomic Energy Corporation. The unified corporate system “1C ERP Rosatom” is deployed in 78 companies within the industry. Over 5,000 workplaces are automated. Corporate Performance Management, a centralized holding management system, covers 800 workplaces.

The background features a large, irregular orange shape on the left and top, transitioning into a white area on the right. The bottom edge is composed of several overlapping, angular shapes in shades of orange, yellow, and brown, creating a layered, geometric effect.

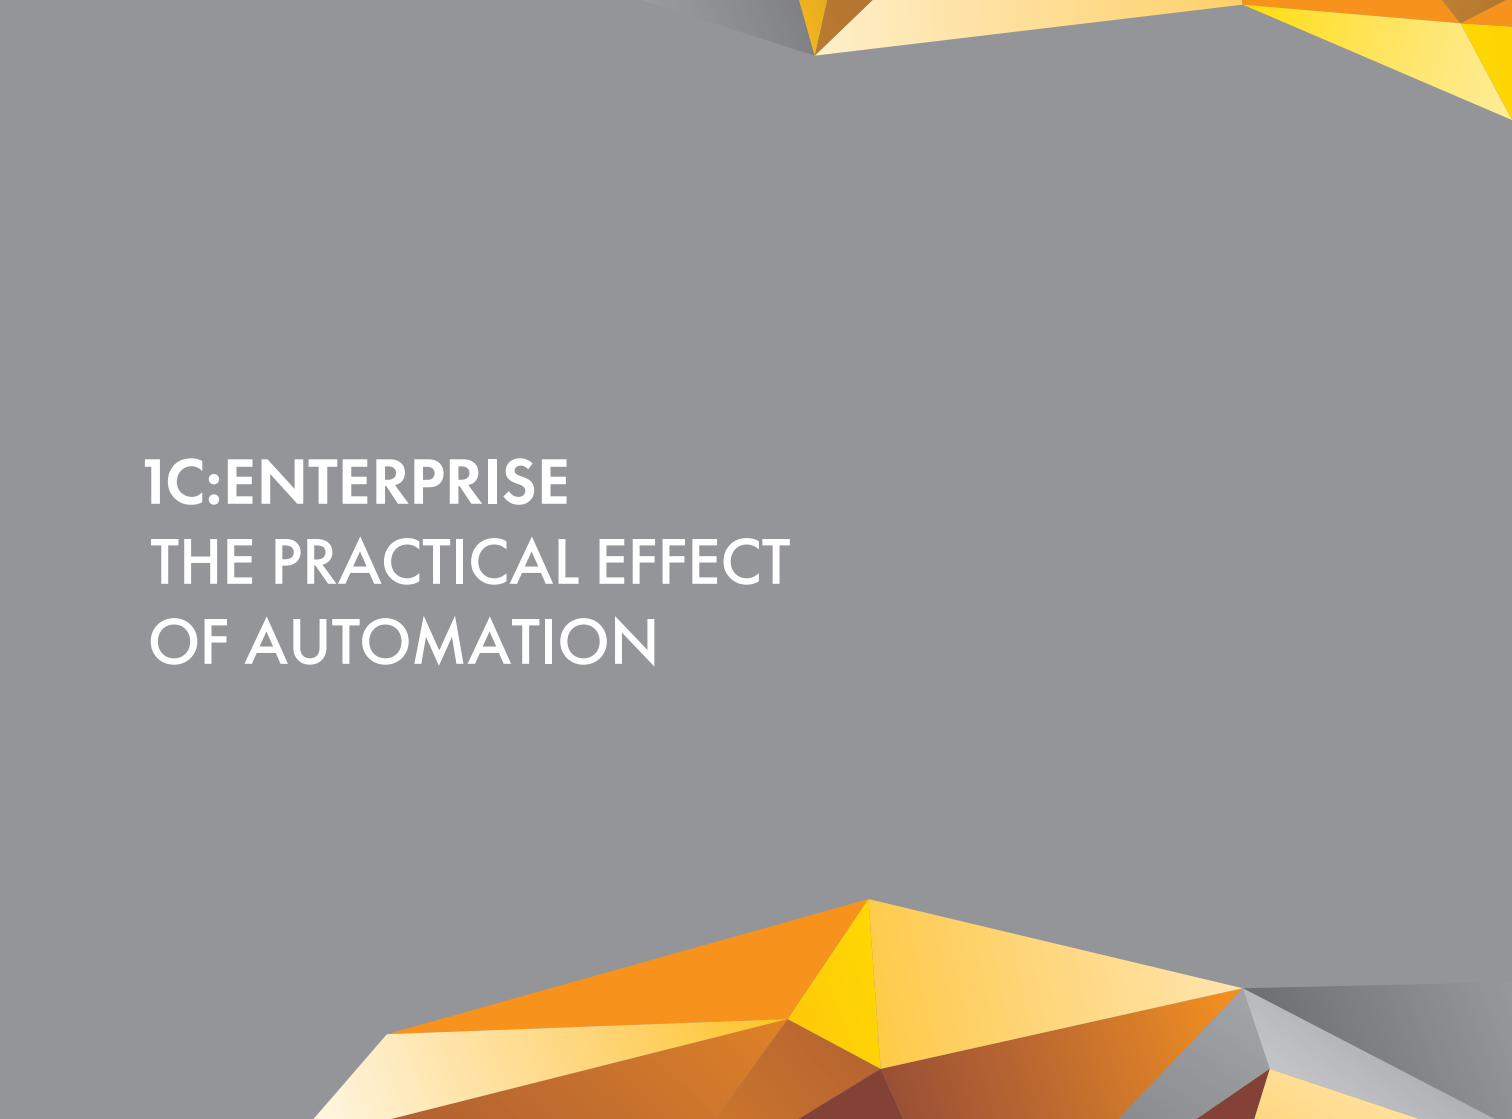

1C:ENTERPRISE
SAVES TIME AND MONEY

Low ownership cost and significant economic benefits due to the growth of labor productivity and a rapid return on investment

Compared to world-known competitors:

- **1.5–2 times** faster implementation
- Implementation only requires **half the manpower**
- License prices are **significantly more affordable**
- Project implementation cost **2–3 times lower** than competing offers
- Maintenance cost **several times lower**

1C:ENTERPRISE
THE PRACTICAL EFFECT
OF AUTOMATION

- **7%** reduction in costs of manufactured products
- **22%** stock optimization
- **29%** production volume growth
- **13%** labor productivity growth
- **11%** accounts receivable aging reduction
- **26%** sales order processing time reduction
- **20%** expense reduction
- **13%** profit growth

Average data for the year 2016, according to published performance data for implemented 1C:Enterprise-based ERP solutions.

The background features a large, bright yellow shape that resembles a stylized sun or a large triangle pointing towards the top right. In the bottom-left corner, there is a cluster of smaller, overlapping geometric shapes in various shades of yellow and orange, creating a dynamic, abstract composition.

1C:ENTERPRISE
IS RIGHT BY YOUR SIDE

- 
- More than **6,700** certified 1C partners
 - Industrial deployment and support quality, **ISO 9001-compliant**
 - Corporate support centers
 - Corporate solution competence centers
 - ERP solution competence centers
 - Consulting centers
 - Certified training centers

The background is a vibrant yellow with abstract, overlapping geometric shapes in shades of orange and red, primarily concentrated in the top-left and top-right corners. The rest of the background is a solid, bright yellow.

1C:ENTERPRISE
WORLDWIDE

- 1C:Enterprise is localized into **17 languages**
- The 1C:Enterprise platform was activated in more than **60 countries** in 2015
- Products and services developed on the 1C:Enterprise platform are used in **Asia, the Middle East, Europe, Africa and the Americas**
- International corporate technology support center
- Online English-based trainings and certification for various developer levels
